

RETURN TO SCHOOL UPDATES

7/24/2020

INITIAL MESSAGE 7/24/2020

As we look to the start of summer school and in-person learning this fall, I am resuming my weekly updates to parents and guardians. Over 90% of parents responding to the survey earlier this month indicated an interest in returning to in-person instruction this fall; nine percent indicated a desire for an on-line option. Learn more about our developing plan for return, including incorporation of health and safety protocols and precautions, as well as educational options and a link to more results from the parent survey in the [July 24 Parent Update](#).
